

Why:

Are you ready to downsize but feel uncomfortable or are physically unable to do it alone?

“Adult children and family members should carefully consider how much time, energy and emotion they can devote to a senior’s downsizing project. Working with a professional can help minimize additional strain on family relationships and help to keep the peace...”

Vickie Dellaquila, author

Don't Toss My Memories in the Trash

Downsizing requires physical work and move coordination. If you aren't able to sort and pack, or if your family is unable to help you, TRANSITIONING TREASURES is here to assist you.

Our Mission Statement

Our mission is to respectfully facilitate the physical and emotional aspects of relocating our clients, honoring their memories and the confidentiality of their needs while responsibly delivering qualified services with compassion and integrity.

National Association of Senior Move Managers

The National Association of Senior Move Managers (NASMM) is a 501(c)(6), not-for-profit, professional association of organizations dedicated to assisting older adults and families with the physical and emotional demands of downsizing, relocating, or modifying their homes.

As the only professional association in the country devoted to helping the rapidly increasing 55+ population with middle and later life transition issues, NASMM members are committed to maximizing the dignity and autonomy of all older adults.

Who: TRANSITIONING TREASURES is a customer service provider that helps you sort, record and qualify your treasured possessions prior to a downsizing move, whether it be to a new, smaller home, or in a residential or assisted living community.

We help you decide what you need to take with you and then respectfully assist you in the dispersal of those items you have chosen to part with.

We can also assist you in locating and choosing a realtor, home stager and mover then help you settle into your new home.

What: *Senior Move Management* is professional assistance for you or your relative with the work required prior to a move into an assisted living community or smaller housing option (apartment, condo or with a relative).

Downsizing is the act of sorting and dispersing those items that will not be accompanying you to your new home.

Aging in Place Planning allows you to safely remain in your home as long as you are able, or while you move towards a transition.

How: We will help you transition by:

- Developing an overall move or “age in place plan”
- Organizing your belongings then sorting
- Customizing a new floor plan at your new home
- Arranging for the profitable disposal of unwanted items
- Interviewing, scheduling and overseeing professional packers and movers
- Contracting for and / or overseeing cleaning and waste removal
- Assisting with hiring a realtor and home staging expert

Other services are available as the need is established. We work with you to ensure that all of your needs are met towards a stress-free, seamless, happy and successful transition!

When: You should begin consider downsizing if you are on a limited income and could live less expensively in a smaller home. Or, if:

- every day yard work and household chores go unattended.
- you are unable to continue to keep personal and financial records.
- driving is no longer an option.
- you only live in two or three rooms of your home.

The key is to plan ahead and not to wait until a crisis comes. Move because you want to, when you want to!

Fees: Every move, downsize and transition is unique. The cost is regularly based on the size of your home and the services required. We offer an initial flat rate consultation based on the number of furnished rooms in your home. Hourly charges then apply for additional services and expenses.

Keep in mind that many times the disposition of your household items could pay for our services!

Please call for more information on our services and for pricing. We happily offer free estimates.
